| Flue Damper Short  | 6 40 GBFS    | 40                         | 38                             | 65                            | 40,000                 | 42                                     | 0.66                  | 22                | 54                                 |

For propane gas water heaters, change “G” to “L” or “N” to “P” or “Y” to “H” or “X” to “C” in the model number. For example: 6 50 GBFT becomes 6 50 LBFT.

‡Some propane gas models have slightly lower inputs than natural gas models, which may reduce First Hour Rating and recovery by up to 3 gallons on propane models.
